

**PRIMARY HYPERPARATHYROID DISEASE (PHPT)**

(Animal Health Diagnostic Centre - College of Veterinary Medicine, Cornell University USA)

Below is a list of the Kennel Club registered Keeshond dogs together with their sire and dam, and giving the date when they were DNA tested for the dominantly inherited Hyperparathyroid disease. The result of the test can be either 'Positive' for the PHPT gene or 'Negative' for the PHPT gene. There is no carrier state for a dominantly inherited gene and it only takes one Positive parent to pass the gene onto approximately 50% of their progeny. The progeny of two gene negative parents, irrespective of whether they are Hereditarily Negative (Negative by Descent) or Tested Negative, will be Hereditarily Negative (Negative by Descent). Where any of the dogs listed have been imported and their country of origin has been confirmed this is shown in parenthesis, in preference to the standard (Imp) identifier.

Further information can be found on The Keeshond Club web site [www.keeshondclub.org.uk](http://www.keeshondclub.org.uk)

**PRIMARY HYPERPARATHYROID DISEASE (PHPT)**

(Animal Health Diagnostic Centre - College of Veterinary Medicine, Cornell University USA)

Below is a list of the Kennel Club registered Keeshond dogs together with their sire and dam, and giving the date when they were DNA tested for the dominantly inherited Hyperparathyroid disease. The result of the test can be either 'Positive' for the PHPT gene or 'Negative' for the PHPT gene. There is no carrier state for a dominantly inherited gene and it only takes one Positive parent to pass the gene onto approximately 50% of their progeny. The progeny of two gene negative parents, irrespective of whether they are Hereditarily Negative (Negative by Descent) or Tested Negative, will be Hereditarily Negative (Negative by Descent). Where any of the dogs listed have been imported and their country of origin has been confirmed this is shown in parenthesis, in preference to the standard (Imp) identifier.

Further information can be found on The Keeshond Club web site [www.keeshondclub.org.uk](http://www.keeshondclub.org.uk)
